

# Intl. NGO-AHD Agriculture Health & Development (AHD\_Intl.)

## VISION

African workers particularly farmers communities that enjoy healthy and productive life where morbidity and mortality among women and children are significantly reduced and poverty and malnutrition alleviated

## MISSION

Provide workers specifically small farmers with mutually supportive access to innovative evidence based best practices and new technologies in Health and Agriculture to improve their health and productivity and consequently their well-being and socio-economical development

## OVERARCHING STRATEGY

Integrated cost effective approaches involving all relevant sectors and stakeholders at the local, national, regional and global levels with a transparent and open participation of the target beneficiaries, the key actors and decision-makers featuring in particular a strengthened role for women.

“Communities are unlikely to make significant changes without government and experts joined support to create the enabling environment that nurtures large scale mobilization”

*(Daniel & Carl TAYLOR*

# AHD-Intl.

**WE ARE STRONGLY COMMITTED  
TO INTEGRATE HEALTH INTO  
ALL PRODUCTION ACTIVITIES  
PARTICULARLY IN AGRICULTURE  
TO ROOT OUT POVERTY IN  
AFRICA**

## Our Convictions?

“Health must be the fundamental input and at the same time the final goal of any human production activity”

## WHO WE ARE?

AHD, is a broad-based collaborative international institution – created and managed by Africans for Africa – to provide workers and specifically farmers’ communities a mutually supportive access **to innovative evidence based Best Practices and New Technologies in health and agriculture to improve their poor health and productivity conditions** and consequently increase their well-being and socio-economical development.

Strengthening Health Systems serving these communities for effective integration of health promotion and disease prevention and treatment in areas such as HIV/AIDS, malaria, tuberculosis – (emerging & re-emerging diseases), for improved maternal and child health and higher productivity

AHD strategy transcends discipline and geographic boundaries to understand and address socio-economic and environmental major determining factors of poor health and agricultural productivity conditions in Africa

## VALUES AND PRINCIPLES

AHD shared organization’s values:

- Humility, Integrity and Respect
- Eagerness to learn & Accountability

**Founding Principles of AHD**  
**“Think Globally, Act Locally”**

- assuring integration of health dimension in in any production activity
- empowering people to discover how to direct themselves and grow from the bottom
- facilitating governments, partners and experts joined support to communities
- promoting good governance, effectiveness and efficiency

## OUR RESOURCES

AHD is staffed by high level professionals in Health and in agriculture with years of experience at national, regional and international levels connected with large networks of specialized individuals and institutions in Africa and abroad

Main stakeholders in the AHD over-achieving strategic approach include governments, intergovernmental agencies, non-governmental organizations, bi-multilateral partners, individuals and structures involved in agriculture, environment, health, education, husbandry, industry, relevant economic sectors, and development cooperation
